PROFILE

Frontend Developer with 1+ year of professional experience building production web applications using React.js for HRIS, ATS, and internal business systems. Skilled in developing reusable UI components, integrating REST APIs, and collaborating with cross-functional teams to deliver scalable and maintainable software solutions. Experienced with PostgreSQL and Metabase for data management and business reporting, with a strong focus on creating clean and user-friendly interfaces.

WORK EXPERIENCE

Frontend Developer | Myralix (Freelance/Contract)

June 2026 – Present

- Developing an Applicant Tracking System (ATS) web application from the ground up as the sole Frontend Developer, collaborating within a four-person cross-functional team to deliver production-ready features.
- Develop reusable React.js components and integrate REST APIs for a production ATS platform used by internal recruitment teams.
- Contribute to frontend architecture decisions and feature planning, leveraging previous experience building HRIS and ATS applications.

IT Developer Intern | PT. Abhimata Persada

Feb 2025 – Feb 2026

- Developed and maintained production frontend features for IT-DAS, HRIS, and ATS applications using React.js and JavaScript, integrating REST APIs to support business operations.
- Cleaned, normalized, and migrated 176 ticket records from Excel/CSV datasets into PostgreSQL databases to improve data consistency and reporting.
- Designed interactive Metabase dashboards connected to PostgreSQL databases, enabling stakeholders to monitor CPI and SPI project metrics in real time.
- Built reusable UI components including data tables, expandable views, custom buttons, and calculated-value displays while performing testing and debugging before production release.
- Implemented an internal Learning Management System (LMS) using Moodle and created user documentation to support employee onboarding and training.
- Collaborated with senior developers throughout the software development lifecycle while gaining practical experience with Java backend fundamentals and API communication using Fetch API.

Manager | P&A Honey

Nov 2021 – Present

- Managed order processing, inventory coordination, and quality assurance for a family-owned retail business.
- Perform regular quality checks for each stock-keeping unit (SKU) to ensure utmost quality for customers.

EDUCATION

Bina Nusantara University | Bachelor of Computer Science

Sep 2022 – Jul 2026

- Undergraduate Thesis: *Enhancing User Engagement in Internship Search Systems Through Adaptive UI/UX Implementation Using the Design Thinking Method.*

SKILLS & TOOLS

- **Languages:** JavaScript, SQL
- **Frontend:** React.js, HTML5, CSS3, REST API, Fetch API
- **Databases:** PostgreSQL, MySQL
- **Tools:** Git, GitHub, Metabase, Moodle
- **Languages Spoken:** Indonesian (Native), English (Professional Working Proficiency)

ORGANIZATIONAL & VOLUNTEERING EXPERIENCE

Education Volunteer | Teach For Indonesia

Oct 2022 – Nov 2024

- Taught students on racism awareness, religious tolerance, and environmental responsibility using supplementary educational books and whiteboard-led sessions.
- Tutored 5th-grade students in Mathematics and English through whiteboard walkthroughs and guided practice written directly in students' notebooks.
